

## AQUOLAC INSTANT HARDNER

### Product Description

Instant hardner is a chloride free liquid chemical . it requires only the site addition of pure cement to produce a highly consistent, rapid setting mortar which is easy to apply in many difficult conditions. The material is based on a blend of chemical and additives which control the rate of set and minimise the risk of thermal cracking.  
Instant hardner provides an initial set time of approximately one minute.

### Technical Data:

Following results obtained @  $23 \pm 2^{\circ}\text{C}$   
Compressive strength  
(BS 6319 Pt 2: 1983) :  $5 \text{ N/mm}^2$  @ 2 hours,  $32 \text{ N/mm}^2$  @ 28 days  
Initial set time: Approximately 1 min  
Note: Set times will be extended when mixed at lower temperatures.

### Advantages:

- ✓ Emergency water-stopping capability
- ✓ Single component - only the addition of pure cement is required
- ✓ Excellent bond to the substrate
- ✓ Low exotherm minimises thermal cracking
- ✓ Pre-bagged formulation to overcome variations in site batching
- ✓ Contains no chloride admixtures

## **Storage**

Keep it in a cool place away from direct sunlight and high temperature.

## **PACKAGING**

**5ltr.**

## **AQUOLAC COATINGS**

A-161/162, S.P. Mukherjee Market, Jhandewalan,  
Behind Saran Petrol Pump, M.M Road,  
(Rani Jhansi Road) New Delhi – 110005.
